

How to attract/maintain IEEE members and IEEE students

- Involvement of Students in the Organization of Workshops, Conferences and other IEEE supported events (IEEE Day,...)
- Technical sponsoring of events, and presentation of Certificates as a form of recognition
- Invitation of DLs to talk about innovative topics
- Awareness on benefits of IEEE ComSoc membership (trainings, conference registrations' discount, ...)
- Intensive publicity will increase the visibility of IEEE among Students and academics

The point of view of the chapter on IEEE ComSoc services

- DLT will certainly increase sustained membership and interests in ComSoc.
- Paid trainings are not always within every'one reach and available to all members

How ComSoc could help the chapters

- Provide ComSoc Promotional Items
- Provide more funds to invite DL
- Provide free of charge trainings to ComSoc Members
- Support travel for the ComSoc EXCOM and other active members to attend meetings and ComSoc Conferences (GlobeCom, ICC,...)
